Feedback on Curriculum *

The Department of Applied Economics is now involved in developing the curriculum structure. Our aim is to train the students in the major areas of Economics to make them conversant with the principles as well as ready to take on challenging roles in society. Appropriate levels of weightage have been given to both core subjects to strengthen their conceptualizations as well as the ability and skill-enhancing courses to make the students' industry ready. Hopefully, the curriculum structure will be approved by the Board of Studies in a couple of months.

tufan.naiya@makautwb.ac.in

Name of Teacher *

Tufan Naiya

Department *

Life Sciences

Phone Number *

9830045343

Feedback on Curriculum *

The syllabus is modified recently and recent topics in the relevant field has been incorporated. The content is more than adequate and need to be reduced for few courses to make them suitable for both fast and slow learners. More weightage may be given to the practical subjects particularly in 2nd and 3rd semester and laboratory training to make the students ready for industry may be incorporated in the syllabus. Textbooks for the coverage of whole syllabus are inadequate in the library. A small module to teach about the value and ethics in publication and research may be incorporated in the syllabus.

Feedback on Design of Syllabus *

Faculty members are given enough freedom to contribute their ideas on curriculum design and development. They are encouraged to establish linkages with Industry.

Suggestion(if any)

This form was created inside Maulana Abul Kalam Azad University of Technology, West Bengal.

Feedback on Curriculum *

The curriculum structure for the entire programme, as well as the sequence of the courses provided in the curriculum, is excellent. The curriculum focuses on skill development and is regularly updated.

Feedback on Design of Syllabus *

The learning objectives are unambiguous and pertinent to the course. The syllabus is course-specific and needs-based. The syllabus strikes an appropriate balance between theory and application. The syllabus covers modern & advanced topics. There are enough books listed as reference materials that are relevant, up to date, and appropriate.

Suggestion(if any)

Some topics' syllabi are very comprehensive and should be revised.
